CHINA TRYING TO RAISE INDEMNITY MONEY FOR POWERS

PEKIN, China, April 3.—President Yuan Shi Kai is bringing strong pressure to bear upon the authorities of the various Chinese provinces to contribute the money for the payment of the Boxer indemnity, now several months overdue. Unless the required sum is speedily made up, the president looks for complications between China and the powers to which the money is owing. These he is desperately anxious to avoid, not only on general principles, but as a means of depriving Russia and Japan, in particular, of the slightest further excuse for grabs of Mongolia and Manchuria, respectively.

The provincial authorities, lacking the president's foresight and conscious only that the money is hard to raise, are interposing all sorts of excuses. This has been going on for fully a month now, and the president shows signs of losing patience. It is understood that, without making an actual threats, he has made it clear that unless the funds are put up very shortly by the people of the provinces, it will come out of the officials. Though some of the officials are said to be grumbling at such high-handed proceedings on the part of a mere "president," it is understood that the money will be forthcoming.

CONVENTIONS TO DETERMINE FUTURE OF PROGRESSIVES

WASHINGTON, April 3.—Whether Taft, Roosevelt or someone else will be nominated at the Chicago convention, and what influence La Follette will have in that meeting—especially what power he will be able to exert to secure a progressive platform—will be determined by the conventions scheduled for early in April.

The first big fight came yesterday in Wisconsin. The state's 26 delegates are practically conceded to La Follette. Roosevelt's managers made no desperate fight in that state. The Taft boomers worked hard but they concede that "Fighting Bob" will get all the delegates.

MUCH INTEREST IN THE COMING SCHOOL ELECTION

There is much interest being taken in the coming school trustee election, which is to be held on Saturday next. The election of Henry Schmidt and Jack McQuillan as long and short-term trustees of the Tonopah school district, means everything to the taxpayers of this city. There is to be a \$50,000 school building erected in Tonopah, and men of ability must guard this bond money issue. These two gentlemen are large property owners and have the interest of this growing city at heart. There is much hard work to be accomplished by the trustees in looking after the proper construction of the new building, and Messrs. Schmidt and McQuillan are the persons who will devote the time that will be required of them. See to it that their names are upon your ballot next Saturday afternoon. The polls are to be at the primary school building.

MAY PURCHASE AUTOMOBILE FIRE TRUCK

The county commissioners have under advisement the purchase of an auto fire truck to take the place of the fire wagon now drawn by the horses. It costs \$750 per year to care for the horses, and with an auto truck this expense would be done away with. The repairs on the auto would not amount to as much in a year as the repairs upon the wagon. The auto would carry several hundred feet more of hose and, besides, would lessen the time greatly in reaching a conflagration, and this is what counts when a fire starts. There is money in the fire fund and the purchase of an auto fire truck would not damage it.

I received a telegram this morning saying that I had carried the state of Wisconsin by at least four to one against President Taft. I also have noticed that a certain candidate
